**Features**

This hand blown glass pendant utilizes LED low voltage technology in a compact faceted shape. Glass is 5-1/4" high x 4" in diameter and is available in several color choices. Light engine includes 5 diodes that are 1.4 watts each and are L70 rated at 35,000 hours. There are 3 downward facing diodes and a reflector system to optimize surface light output. There are 2 upward diodes which uniformly illuminate the glass. Pendant is suspended from 8' coax cable that can be cut to height and retained with a set screw and strain relief bushing. Product can be used over receptions desks, restaurants, and in any task lighting application. Driver is located in the canopy which mounts to standard junction box (not included).

**Construction**

Glass is supported with a 1/8" IP threaded stem and jam nut. Canopy is  $\phi$ 5-1/4" x 1-5/8" deep fits over a standard junction box. Canopy is retained to the junction box from the inside with 2 mounting screws and the cover is retained with a strain relief. Power supply connections must be made inside a junction box (not included).

**Finish**

All exposed metal parts are plated satin nickel or oil-rubbed bronze with clear lacquer topcoat.

**Diffuser**

Diffuser is 3/16" thick hand blown case glass which is available in amber or white.

**Electrical**

This unit is direct wired with a low voltage electronic LED driver located in the canopy. The constant current LED driver is rated for 10W with a constant voltage of 120 VAC/60 Hz.

**Lamping**

All pendants include (5) 1.4 watt LED diodes. There are 3 downward facing diodes that are 4000K and the upward diodes are complimentary to the glass.

**Certification**

All fixtures are cETLus listed for damp locations.

**Options**

Custom colored glass
