

DESCRIPTION

These decorative, low voltage, halogen lights are small cylinder shaped fixtures that can be surface or recess mounted. Designed for accent and task lighting environments, they come in black, white and gold finishes, and they are dimmable. They operate with a low heat 60 watt transformer that includes a terminal block and offers a hard wire or plug-in option. The transformer also features a circuit overload protector that prevents overheating and automatically resets itself. Each unit uses (1) 20 watt halogen accent lamp and a 79" wire lead with molded connector plug. All units feature a one year warranty.

CONSTRUCTION

Housing and lens ring are injection molded of heat resistant thermoplastic. Reflector is stamped of faceted aluminum. Housing mounts to surface with three screws or can be recess mounted with screws or optional spring clips.

FINISH

White and black housings and lens rings molded of opaque white or black thermoplastic. Gold housing and lens ring have a bright vacuum metalized heat resistant finish.

DIFFUSER

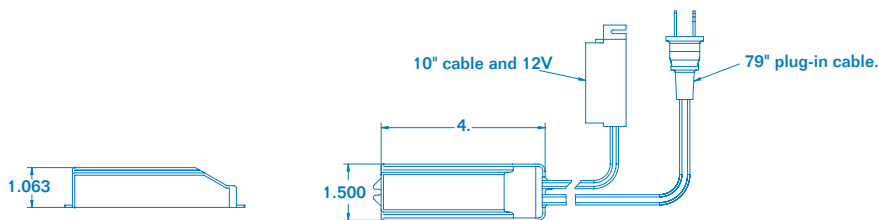

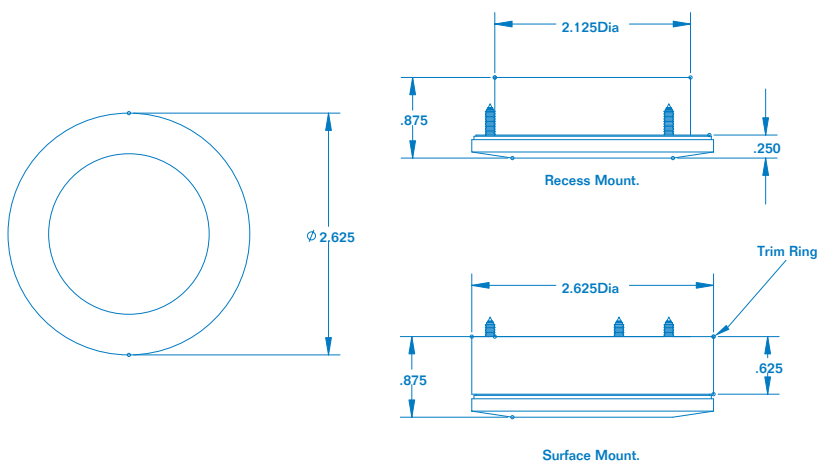

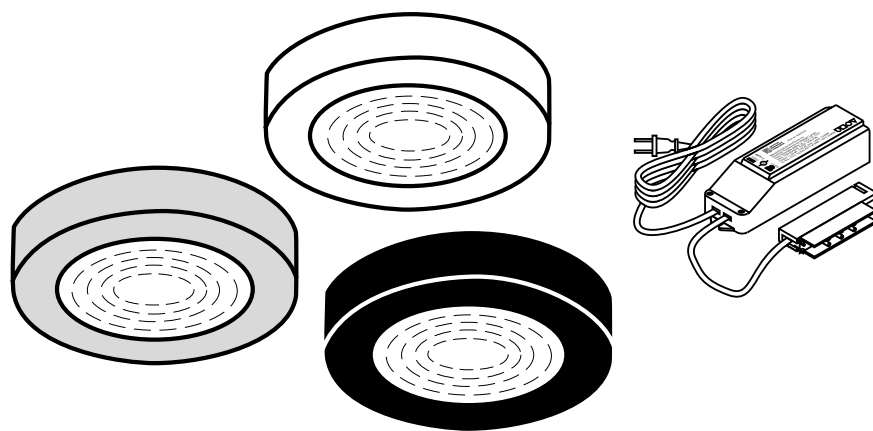

The lens is frosted tempered glass and snaps into the lens ring. The lens ring snaps onto the housing after mounting screws have been installed.

ELECTRICAL

All units are provided with E.T.L. listed, electronic 12 volt, 60 watt maximum halogen transformer, for 120 volt, 60 hertz A.C. operation. 60 watt transformer has terminal block and six-foot cord and plug pre-wired. Transformers are also available in 150 watt class II, and 300 watt class II. T3 / G4, 12v, 20 watt clear halogen lamp included. Lampholders are G4 bi-pin type. All fixtures are U.L. listed.

OPTIONS

Housing is also available in metalized chrome (contact factory). All units available with alternate 10 watt lamps (contact factory). Spacer rings and spring clips available for recess mounting (contact factory). Extra terminal block for connecting up to total of six 10 watt fixtures on 1 transformer (contact factory). Extension cables for longer runs available in 20" to 119" lengths (contact factory). Touch dimmer and rotary dimmer available (contact factory).
