

DESCRIPTION

These surface fixtures feature solid wood trim with medium oak finish and a smooth white drop dish style acrylic diffuser. Available in five sizes which use (2) 24" lamps, (2) 48" lamps, (4) 24" lamps, (4) 48" lamps or (2) 6" U lamps.

CONSTRUCTION

Housing, cover and ends are die formed of 22 gauge cold rolled steel. Standard mounting holes and standard wiring knockouts are included, with an extra 2" diameter center knockout on the back for wiring entry.

FINISH

Housing interior and exterior are finished in lighting grade white baked gloss enamel paint.

DIFFUSER

Lens is a one-piece extruded smooth lens of translucent white 100% virgin acrylic, .080" thick, vacuum formed into a drop dish shape that hangs below the bottom surface of the wood frame. The wooden frame is constructed of solid oak decorative molding. Frame exterior is stained medium oak. The entire frame attaches to the housing with a pre-installed bracket inside one end and one #8 screw through other end.

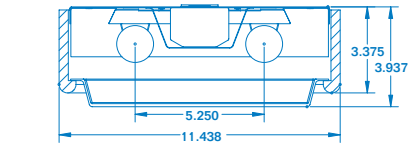

ELECTRICAL

All units with model numbers ending in ES are wired with U.L. listed high power factor, rapid start, Class P, energy saving (ES) full light output, (E) ballasts, for 120 volt, 60 hertz A.C. operation.

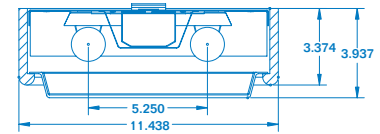

All non-rapid start units have trigger start, normal power factor ballasts. Lampholders are rotating lock, medium bi-pin type. All fixtures are U.L. listed.

OPTIONS

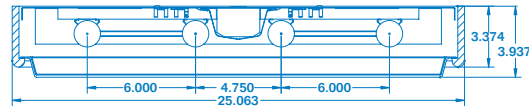

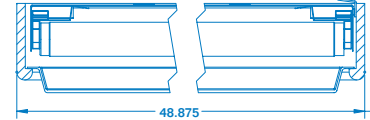

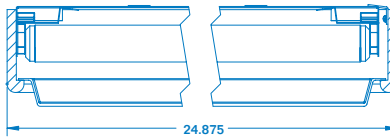

Available in unfinished wood ready for custom staining or painting at jobsite (contact factory). Alternate clear prismatic drop-dish diffuser available (contact factory). For ballast upgrades and options, refer to back of guide. Other voltages, listings, and ratings available on request (contact factory).
